### Richard Laing, Chairman of 3i Infrastructure plc (the 'Company')

*"I am delighted with our performance in the first half of the financial year. The Company continues to outperform its objectives and is on track to deliver the full year dividend target for FY19, up 10% from last year. We remain confident in our business model and strategy."*

### Performance

The Company generated a total return of 9.3% on opening NAV for the first half, ahead of the target return of 8% to 10% per annum to be achieved over the medium term. The NAV per share increased to 226.4 pence. The portfolio is performing in line with expectations overall, both financially and operationally, with our Investment Manager driving value growth over the period through engaged asset management.

We delivered a Total Shareholder Return ('TSR') of 16.2% in the period (FTSE 250: 6.1%). Since IPO, the Company's annualised TSR was 12.7%, comparing favourably with the broader market (FTSE 250: 8.1% annualised over the same period). The Company has achieved this outperformance with relatively low share price volatility.

## Interim dividend

We are announcing the payment of an interim dividend of 4.325 pence per share, scheduled to be paid on 7 January 2019 to holders of ordinary shares on the register on 23 November 2018. The ex-dividend date will be 22 November 2018.

## Corporate governance

The Company's Annual General Meeting was held on 5 July 2018. All resolutions were approved by shareholders, including the election and re-election of all Directors to the Board. An Extraordinary General Meeting ('EGM') was held on 17 September 2018, at which shareholders approved the resolution regarding the terms of the new Investment Management Agreement between the Company and 3i Investments plc (the 'Investment Manager'). The Board has continued to engage with shareholders since the EGM, including those who voted against the resolution.

The management and tax residence of the Company moved to the UK on 15 October 2018 with 3i Investments plc as the Alternative Investment Fund Manager. This move mitigates the risk of additional tax costs following the implementation of the tax base erosion and profit shifting ('BEPS') initiative by OECD countries.
