

We invest in resilient businesses that combine strong downside protection with exciting growth prospects. Our controlling stakes allow us to drive value creation strategies. We have repeatedly sold these stakes above holding value, delivering superior returns to shareholders.

Our objectives are to provide shareholders with a total return of 8% to 10% per annum, to be achieved over the medium term, with a progressive annual dividend per share.

We provide public market investors with access to mid-market core-plus private infrastructure businesses across a variety of megatrends, sectors and geographies.
